

# Spotlight Shares....

Some of the groups/venues we visited this month:

- RNID - Drop-in (Maltby Health Centre)
- Migrant drop-in (Unity Centre)
- Tesco (Town Centre)
- Lighthouse homes
- St Mary's Coffee Pot

December 2024

## Here's a snapshot of what was shared.....

*"The RNID clinics are brilliant because you can just drop-in when you need new tubes or batteries for your hearing aids. If you had to wait to have them replaced at Greasbrough Road you'd be waiting up to 2 months. Great service!"*

*"Breathing Space is brilliant, a great service with really lovely staff"*

*"I'm at a doctors surgery where if you want an appointment you have to fill in a triage form which then goes to the doctor for them to decide how urgent it is. What do people do who can't read and write?"*

*"I think there should be a better way of assessing people and then prioritising people for the care they need. Also, some people just expect medication and doctors are very quick to give out medication and not assess someone's lifestyle first. I think that there should be funding available to provide people with access to gym's."*
