

Spotlight Shares.....

Some of the groups/venues we visited this month:

- Rotherham Hospital
- Landmarks Specialist College
- The Learning Community - Dinnington
- Rotherham Minster - social supermarket
- Sunehri Dementia cafe (Making Space)
- Shiloh

March 2024

Here's a few of the things you shared.....

" I was offered an appointment at the hospital on a Sunday, which is great but public transport isn't as available on a Sunday and I had to cancel in the end and continue to wait for another appointment."

"We lost our mum a few months ago and had access to one of the Purple Butterfly rooms at the hospital. The care and attention we received was wonderful!"

"I feel that dental treatment should be free or subsidised more than it is. It creates many issues for people especially considering the cost of living crisis."

"Your age is a factor when it comes to accessing healthcare services. It sometimes feels like the elderly don't matter!"

"I have a substance addiction and mental health issues. When I tell healthcare workers my story, I feel their attitude towards me changes and I just want treating like everyone else."
