Here's what you shared.....

" My maternity care at Rotherham hospital has been really good, I'm expecting my 4th child."

"My child has been waiting ages for an assessment for autism. I know he's autistic, he shows so many traits and is extremely different to my other children. Waiting lists are far too long."

"My child has been let down by services. He's autistic and has PDA and has developed agoraphobia. He's missed out on his education and his life is passing him by. He's 18 now and will be moving to adult services so I'm not sure what will be offered to him if anything."

"My mental health isn't good at all and I have no idea where to turn to for help and support."

"I'm under ENT here at the hospital and they are absolutely amazing!! A-MA-ZING! The staff are so thorough and so so kind, you really feel like they care for you so much. I'm so pleased with the treatment from this department. Thank you to them all!"
