Over the last couple of weeks Healthwatch visited:

- Social Group at Mowbray Gardens Library
- Hygge cafe tots club
- Shiloh
- Kimberworth Park Christ Church
- Breathing Space

Here are some of the things you've shared

"Ward A3 at Rotherham hospital were brilliant, I can't fault them. I was there as my wife was in hospital. They were so caring. If I was ever in hospital I'd want to be in that ward. Nothing was too much trouble from the cleaners to higher up"

"You can't diagnose someone over the phone. 90% of communication is body language (about over the phone GP appointments)It's frustrating not being able to see a doctor in person"

"I've not seen my GP in 15 Months, it was only when I kicked off they gave me an appointment. Now I've seen them eight times since then"

"I tore my ligament in my leg, I waited 11 hours in A&E. I wasn't offered any pain medication whilst there or a wheelchair to help me"

"I'm struggling to find a dentist for my little ones at the moment. They all have a two year waiting list"
