COVID-19 update:

England is moving to Plan B in response to the risks of the Omicron variant.

- Get vaccinated and get your booster dose.
- Wear a face covering in most indoor public places and on public transport
- Work from home, if you can
- Let fresh air in if you meet indoors. Meeting outdoors is safer
- Get tested and self-isolate if required

Fully vaccinated contacts of someone with COVID-19 should take rapid lateral flow tests every day for 7 days. If you test positive or develop symptoms, you need to self-isolate for 10 days. People aged 18 or over can pre-book a booster dose appointment 2 months after their second vaccine dose. You can get your booster dose 3 months after your second vaccine dose. Book your booster vaccination appointment or find a walk-in vaccination site.

The latest figures in Rotherham show an increase of 36.8% in Covid-19 cases on the previous week. (13th-19th December 2021)

84.7% of people aged 12 and over in Rotherham have now had their first dose of the Covid-19 vaccine, with 78.2% having had their second dose. (18th December). Vaccine data now includes 12-15 year olds so the percentages are lower than they were previously. We currently do not have exact data for third dose/booster totals in Rotherham.
